The committee is committed to actively, and prudently, addressing poor corporate governance practices or regulatory constructs, and otherwise responding to issues affecting the integrity of the capital markets and market participants, utilizing the tools and methods available to proponents of good corporate governance. In instances where a committee member believes it would be in the best interest of the system to vote in agreement with a shareholder for a particular proxy proposal instead of with the proxy advisor’s recommendation, the committee member may, not less than seven days in advance of the proxy vote, contact the committee chair and request a meeting be held for the purpose of analyzing and voting on the proxy proposal. Once the committee has voted, the committee shall delegate responsibility to the executive director to carry out the proxy vote, if necessary. In the event that a committee member contacts the committee chair less than seven days before a proxy vote, the committee shall discuss the proxy topic during its next review of the proxy voting guidelines.
